

Green for Business Case Study

Macroom Golf Club & The Mulligan Room

Outcomes:

€2,110

Estimated annual cost savings

4 tonnes CO2

Annual emissions reduction

Energy Improvements:

- LED lighting installed in clubhouse restaurant
- Sensor lighting added (toilets & storeroom)
- Energy-efficient oven installed (28% more efficient)
- Follow-on Energy Efficiency Grant secured

Waste Reduction Measures:

- Improved waste segregation (additional compost bins)
- Staff training on waste management
- Clear bin signage (mywaste.ie)
- Switched to lower-cost waste provider
- Compostable takeaway packaging introduced
- Target: Up to 50% reduction in general waste by end of 2026

Future Plans:

- Recycling bins across the golf course
- Composting partnership (Macroom Tidy Towns)
- Long-term sustainability plan
